Re: 9A-KX-64371, 05/29/1996

One letter was addressed to [redacted] and one to Pat Summitt. The postmark date was 4/2/1996, Seattle, Washington. The return address was [redacted]. Both letters made threats against [redacted] Summitt, [redacted] entire family, and associate coaches. [redacted] letter contained a newspaper clipping with vulgarities written on [redacted] picture.

b6  
b7C

Each letter had been placed in separate evidence envelopes by the UT Police. Both letters have been handled by several persons.

On 5/3/1996, [redacted] voluntarily appeared at the Seattle Office of the FBI. [redacted] was accompanied by [redacted] Attorney at Law. [redacted] was shown copies of letters sent to victims and denied that he wrote the letters. It is known that [redacted] parents currently live at the address listed on the return address although [redacted] is no longer in that home. [redacted] agreed to provide handwriting samples and fingerprints. At the advice of his attorney, a polygraph examination was not conducted. Although denying he wrote the letters, [redacted] had no idea who would set him up and have this personal knowledge about his parents' address.

b6

Investigation at Knoxville is continuing.

Please compare handwriting exemplars with the actual letters sent via the U.S. Mail. Also look at the anonymous letter file to see if any letters of such nature were received by anyone else after the NCAA Women Basketball Finals. Upon finishing, please send to the Latent Print Section so they may compare major case prints with the two actual letters in envelopes sent via the U.S. Mail.

Result of examination:

A definite determination could not be reached whether the questioned writing appearing on specimens Q1 through Q5 was prepared by [REDACTED] the writer of K1. However, characteristics were observed which suggest [REDACTED] may not have prepared the questioned writing.

b6  
b7C

A definite determination could not be reached due to the limited amount of comparable known writing.

If a further examinations are desired in this matter, it is suggested that additional dictated and/or undictated known writing be obtained. The known writing should be in the same format (handwritten/hand printed) and text (wording) as the questioned writing.

Dictated known writing should be obtained on separate sheets of paper. These sheets of paper should be removed from the writer's view upon completion of each sheet. Twenty to thirty repetitions may be needed of the questioned text in order to obtain normal naturally prepared writing.

Undictated known writing should be obtained in the same format (handwritten/hand printed) and text (wording) as the questioned writing, if possible. Sources of undictated known writing may include canceled checks, applications, business records, et cetera. The undictated known writing must be authenticated as the known writing of a particular individual.

A search of the Anonymous Letter File will be conducted at a later date. Should positive information be developed, you will be notified separately of the results.

No indented writing or watermarks were observed on specimens Q1 through Q5.

The submitted specimens have been photographed. These photographs are retained.

You will be separately advised regarding the results of the requested latent fingerprint examination and the disposition of specimens Q1 through Q5 and the ALSO SUBMITTED items. Specimen K1 is returned herewith.

## Four championships for Summitt

By **SHELDON SPENCER**  
PI REPORTER

CHARLOTTE, N.C. - On one plane the woman and coach named Pat Head Summitt feels she is far from the top - even though no contemporary is in reach of her.

Yesterday before the largest crowd to watch a Division I women's basketball title game, Summitt won her fourth NCAA championship as her University of Tennessee squad toppled Georgia 83-65 in Char-

lotte Coliseum.

Summitt, 43, has 596 career victories, a 40-1 record in NCAA tournament games and nine Final Four trips. With other NCAA titles in 1987, 1989 and 1991, she has 10 peer among women's coaches. Certainly her Knoxville, Tenn., domain is Eastwood to hallowed UCLA coach John Wooden's Westwood. Summitt is a golden or

Yet in the wake of Tennessee's domination of its Southeastern Conference nemesis, Summitt declined to accept comparison with Wooden.

**Why not refine the "Plug" look, when a natural-looking hairline can be achieved?**

At Elliott & True, we specialize in refining the hairlines of patients who have a "plug" look from outdated procedures. Our Monografting technique utilizes Mono (1 hair) & MDT (1-3 hair) grafts to recreate a soft, natural-looking hairline. The grafts heal in about 1-2 weeks and exhibit growth in 2-12 weeks.

Pictured is patient J.A. before with a plug look from outdated procedures (left) and after Microtechnology procedures done at Elliott & True. Meet a patient at your complimentary consultation.
